SMART INDIA HACKATHON 2025

IDEA TITLE

IDEA TITLE:***GUIDELY***

•Proposed Solution

A personalized mobile and web application that acts as a one-stop career and education advisor for students after Class 10 and 12. The platform helps them choose the right subject streams, explore suitable degree courses in nearby government colleges, and understand the long-term career pathways—including jobs, competitive exams, and essential skills—linked to their decisions.

Problem addressed:-

Awareness Gap

Demystifying Thoughts

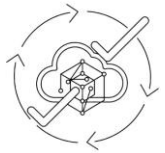
College Info. And Visibility

Career Counselling

Innovation and uniqueness

Ai Driven Personalization

Offline Approach



Hyperlocalised Focus

Data Accuracy And Updation

CODE_MOSES

TECHNICAL APPROACH

SMART INDIA HACKATHON 2025

Technologies utilized:-

Frontend

React js + Vite + typescript

Backend

SupaBase (BaaS)+ Express js

Database

Supabase+ PostgreSQL

Ai recommendation

Scikit-learn

Cloud hosting and deployment

Government cloud for secure and scalable hosting

Methodology and process for implementation (Flow):

Onboarding & Profile Creation → **Aptitude test** → **AI powered recommendation** → ***Personalized Dashboard*** → **Info tracking** → **Ai powered career counselling**

CODE_MOSES

FEASIBILITY AND VIABILITY

SMART INDIA HACKATHON 2025

❖ *Analysis of the feasibility of the idea:*

Technical feasibility

The proposed technology stack consists of mature, widely-supported, and scalable technologies

Operational feasibility

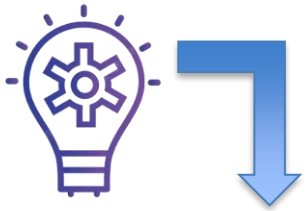
The implementation strategy relies on collaboration with government education departments, which is achievable.

Economical feasibility

Development and maintenance costs are relatively low compared to physical infrastructure projects. The platform can be scaled statewide or nationally at a marginal incremental cost.

❖ *Potential challenges and risks:*

- **Data Accuracy**: Updating courses, eligibility, and deadlines.
- **User Adoption:** Engaging students in remote areas.
- **Digital Literacy:** Making the app simple for tech-limited users.



❖ *Strategies for overcoming these challenges:*

- **Data:** Automate via state partnerships.
- **Adoption:**Outreach through schools & NGOs.
- **Literacy:** Simple UI with languages & videos.

IMPACT AND BENEFITS

SMART INDIA HACKATHON 2025

❖ **Potential Impact on Target Audience:**

- Empowers informed career decisions.
- Increases access to free, local guidance.
- Reduces dropouts by providing a clear path.

❖ **Benefits of the Solution – Social**

•Significantly improves enrollment in government degree
•Creates a more equitable education landscape
•Strengthens the public perception of government colleges

❖ **Benefits of the Solution – Economic**

•Helps develop a skilled workforce that is better aligned with market demands
•Prevents students from investing in low-quality, high-cost private institutions
•Maximizes the utilization of public educational resources
